3. Fax back your signed contract. Now you are ready to receive your numbers and start advertising your new premium rate service (s).

4. Discuss your plan for bringing in premium rate traffic. Payments cycles will then be shown to you on our rate card. We can set up a stat monitoring account for you to login and view your own traffic in real time.

5. You will be allocated your own numbers. These numbers that you need to generate traffic on.

The Basics

The **term Premium Rate** is self explanatory really. It is the term used to describe calls, which are charged to the caller, at a higher (premium) rate than a normal telephone call. This extra charge is then collected via their telephone bill and shared between the Service Provider and the Network Operator. For every minute that is spent on one of your services we will pay you the agreed tariff payout, this differs depending on the service and tariff you choose. Advertising and promoting your services is the key to success. Well advertised services generate far more revenue and intern more profit for you

Types of Service Available

The **premium rate services** available are wide and varied. They range from Competition Lines, Horse/Dog racing & live gambling, we also offer Virtual Chat and Live Adult 1-2-1 Chat. Clients with their own premium rate services are known as Information Providers and receive a portion of the revenue which is left after all other parties take their share.

All day every day with simultaneous calls - means more money for you unlike a traditional 9-5 business, you can make money at any time of the day or night. Many of the callers to our Virtual Chat Service for example, dial into the service during the early hours of the morning. Our automated systems are at work, 24 hours a day, 7 days a week, 365 days a year.

So you are literally **making money while you sleep!** And if you are concerned about call volume and engaged tones...you needn't be! State of the art telephony equipment, with massive capacity to take all the call volume your customers can throw at it!

Get Started Now

To get started simply [apply here with your details](#). You'll then be contacted by your dedicated account manager and receive your welcome pack.
